# **EXECUTIVE SUMMARY**

## Introduction

The New Orleans Regional Transit Authority (RTA) operates 4 streetcar lines, 27 bus routes, 3 dedicated Owl/Late Night routes and offers para-transit services. Due to several factors explained below, the RTA is experiencing fleet reliability issues which are impacting the agency's ability to provide reliable service to the community. To address this issue, the RTA will be enacting a Winter 2024 Service Change on January 14, 2024, to bring scheduled service in line with the agency's current fleet situation.

As part of this Winter 2024 Service Change, the RTA will reduce frequency of fixed-route bus service to ensure sufficient vehicles are available to provide consistent, reliable service for riders. The upcoming changes will impact the following lines:

#### Table 1: Routes impacted by Service Change

3	Tulane-Elmwood	66	Hayne Loop
8	St. Claude-Arabi	67	Michoud Loop
9	Broad-Napoleon	84	Galvez
11	Magazine	103	General Meyer Local
27	Louisiana	105	Algiers Local
52	Paris-Broadmoor	114A	Garden Oaks-Sullen
61	Lake Forest-Village de L'est	114B	Garden Oaks-Woodland
62	Morrison-Bullard		

RTA looked to evaluate whether proposed service changes would adversely impact minority and low- income riders in accordance with the agency's Environmental Justice and Social Equity Policy and Federal Transit Administration (FTA) Title VI guidance.

## **Changes to Service**

Currently, the RTA can consistently operate 78-80 buses in peak service. However, given that there is some day-today and week-to-week volatility to that number, the RTA decided to bring the peak vehicles in service down to 73 for this service change, enacted January 14, 2024. This new scheduled service provides the public with schedules the agency believes it can reliably meet and provides the agency with cushion in its vehicle fleet to maintain service even as other issues arise.

#### Changes to Service Frequency

Understanding that this is a broad reduction in service, RTA staff took great pains to make sure the negative impacts from reductions in service didn't fall disproportionally on any neighborhood or community. Furthermore, RTA leadership established that no part of the system would lose service in this reduction. Therefore, lines with only one bus – low-ridership coverage routes – would be untouched. To ensure minimal impact, the staff decided to

reduce many lines by one vehicle each in peak service to reach the total reduction goal of 14 buses. This spread the cost of the reductions in frequency across the service area, while also spreading the benefit of increased reliability in a similar fashion.

## Table 2: Headway Changes by Line

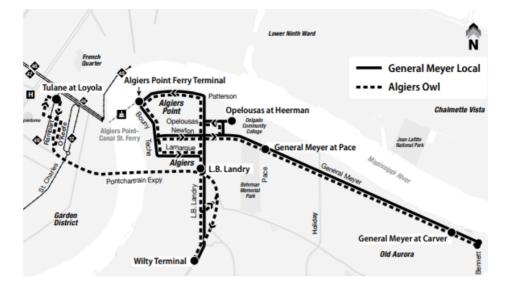

Line	Current Headway (As of 9/ 10/2023	<u>New Headway</u> (Beginning 1/14/2023
3 - Tulane - Elmwood	20	Decreased to 24 minutes
8 - St. Claude - Arabi	18	Decreased to 24 minutes
9 - Broad - Napoleon	20	Decreased to 23 minutes
11 - Magazine	24	Decreased to 33 minutes
27 - Louisiana	35	Decreased to 53 minutes
52 - Paris - Broadmoor	34	Decreased to 44 minutes
61 - Lake Forest - Village de L'Est	24	Decreased to 30 minutes
62 - Morrison - Bullard	24	Decreased to 30 minutes
66- Hayne Loop	35	Decreased to 70 minutes
67 - Michoud Loop	30	Decreased to 60 minutes
84 - Galvez - L9	30	Decreased to 45 minutes
103 - General Meyer Local	30	Decreased to 45 minutes
105 - Algiers Local	40	Decreased to 80 minutes
114A - Garden Oaks - Sullen	30	Decreased to 40 minutes
114B - Garden Oaks - Woodlands	30	Decreased to 40 minutes

#### Route Changes

#### 103-General Meyers Local

In order to mitigate the reduction in service on the West Bank and Algiers routes, the decision was made to adjust the route of the 103-General Meyers Local. Under the previous set-up, this route would terminate at Wilty Terminal in Gretna. Riders seeking to go downtown would then have to transfer to the 114A/B. This was previously a timed transfer, with the 114A/B scheduled every 15 minutes. With the reduction in service on the 114A/B, the timed transfer was no longer feasible, creating longer and inconsistent wait times for riders of the 103. Therefore, instead of having the 103 stop at Wilty Terminal and force a now onerous transfer, the 103-General Meyer will continue past Wilty to the Main Library Hub (see map), bringing riders to downtown directly.

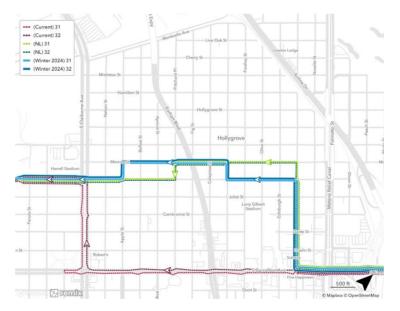

The number of peak vehicles on the route will remain the same, but the route extension will increase headways from 30 to 45 minutes. While this is a reduction in service, the elimination of a forced transfer, and the subsequent waiting cost, is eliminated for many riders.

## 31-Leonidas-Gentilly & 32-Leonidas -Treme

These two routes are being restored following cessation of roadway construction in the Hollygrove neighborhood that has caused the route to be on detour for the past year. This change improves service in a low-income minority neighborhood and has no impact on service frequency.

#### **Equity Analysis Findings & Conclusion**

This analysis of the changes resulted in a finding of small disproportionate burden and disparate impact for lowincome and minority communities. However, it is important to realize that reductions in scheduled service are merely reflective of the daily reductions in bus service currently happening and that riders are experiencing. Those

daily, fleet induced reductions, however, are not planned or predictable for riders. This reduction in service is intended to be as short as possible and improve the reliability of the service. The goal is that even if the bus is less frequent, you are more confident it will arrive at the scheduled time.

The agency, therefore, concludes that the negative impact of the reduced service frequency, and the minor disproportionate burden and disparate impact therein, will be mitigated by a significant increase in service reliability.

1 1	
Low Income	Minority
24.8%	72.0%
23.8%	69.4%
1.0%	2.6%
	24.8% 23.8%

## Table 3: Disparate Impact of Service Changes

# **RTA TITLE VI PROGRAM**

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Title VI provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance from the U.S. Department of Transportation.

Title VI requires that an equity analysis be conducted for all major service changes and all fare changes impacting minority and low-income transit routes in the system. RTA has conducted an equity analysis for a Winter 2024 Service Change

The Regional Transit Authority (RTA) has established a Title VI Program in accordance with Title VI of the Civil Rights Act of 1964; 49 CFR Part 21; FTA Circular 4702.1B; related statutes and regulations to ensure compliance with Title VI, to the end that no person is excluded from participation in, or denied the benefits of, services on the basis of race, color, or national origin.

## Policy Thresholds for Title VI and Environmental Justice Methodology

Factors for compliance with Title VI of the Civil Rights Act of 1964 addressed in this equity analysis are:

- Major Service and Fare Change Policy
- Disparate Impact Policy

The service equity analysis is for existing bus line services impacted by the Winter 2024 Service Change. The following are all lines that will experience frequency reductions:

#### **RTA Major Service and Fare Change Policy**

Title VI prohibits intentional discrimination, as well as actions that result in unintentional discrimination or disproportionate adverse impacts to communities of color and low-income communities. As such, to ensure that changes to services and fares are equitable the RTA will conduct a Service and Fare Equity Analysis for all Major Service Changes, where a major service change meets the following threshold:

- Any change of more than 25% of the revenue hours or route miles on a given transit route (bus or streetcar) or a branch of a route for an individual day (weekday, Saturday or Sunday) measured as happening at one time or within a single year. Route Branch is defined as one of the two or more route segments served by a single route.
- Any change to the span of service on a given transit route (bus or streetcar) of 2 hours or more for an individual day (weekday, Saturday or Sunday). A span of service is defined as the time from the start of the first trip to the start of the last trip on a given route.
- The introduction of any new transit route (bus or streetcar) with the exception of supplemental services designed to reduce potential overcrowding on regular (scheduled) transit routes.

• The discontinuation of a route or portion of a route with no alternative service within¼ mile.

For all routes with proposed changes that meet the major service change threshold, RTA will conduct a social equity analysis to:

- Determine the benefits to and potential negative impacts on minority and low-income populations.
- Quantify expected effects (positive or negative); and
- Determine the appropriate course of action to prevent, minimize or mitigate the impacts as warranted.

## **RTA Disparate Impact Policy**

To determine whether a disparate impact exists as the result of a proposed major service change, RTA will compare existing service to proposed service, and calculate the absolute change as well as the percent of change in travel time. If it is determined that the increase in travel time from the proposed service change is more than 15 minutes for any minority or low-income transit route, then the change will be deemed to have a disparate impact.

Additionally, all new routes featuring the presence of new route numbers, new route alignments, new service types or new service configurations will require an equity analysis with the exception of supplemental services designed to reduce potential overcrowding on regular transit routes. For a new route, the methodology for analysis requires determining if the new route causes a major service change in an existing route. If it is determined that the new service causes an increase in travel time of more than 15 minutes for any minority or low-income transit route that is affected by the new service, then the change will be deemed to have a disparate impact.

For the discontinuation of a minority or low-income transit route or portion of a route, the analysis will determine the availability of an alternative route or service within one-quarter mile. If there is no alternative within onequarter mile, then the route or service discontinuation will be deemed to have a disparate impact.

#### **Minority and Low-Income Thresholds**

#### Minority

According to the FTA Circular, "minority persons" include those classified as (1) American Indian and Alaska Native, (2) Asian, (3) Black or African American, (4) Hispanic or Latino, and (5) Native Hawaiian and Other Pacific Islander.

RTA defines a minority Transit Route as one in which at least one-third of the revenue miles are located in a Census block or block group, or traffic analysis zone where the percentage minority population is equal to or greater than the percentage minority population in the service area.

## Low-Income

According to the FTA Circular, "low-income" means a person whose median household income is at or below the Department of Health and Human Services poverty guidelines. These guidelines are based on household income and household size.

RTA defines a low-income transit route as one in which at least one-third of the revenue miles are located in a Census block or block group, or traffic analysis zone where the percentage low-income population is equal to or greater than the percentage low-income population in the service area.

#### Local Thresholds

The RTA operates routes in Orleans Parish and the City of Kenner. Since the two are separate municipalities with separate transit routes and funding sources, the minority and low-income thresholds are different for the two different service areas. The population of Orleans Parish is sixty-nine percent (69%) minority and twenty-four percent (24%) of the population in Orleans Parish is below the Census defined poverty level. The RTA Title VI policy does not specify a threshold above which a disparate impact or disproportionate burden would be found for a service change. Therefore, the threshold is assumed to be 0%. This means that if the population bearing an adverse effect has a higher minority percentage than the service area, then the change will be deemed to have a disparate impact. If the population bearing an adverse effect has a higher percentage of persons in poverty than the service area as a whole, then the change will be deemed to have a disproportionate burden.

## SUMMARY OF SERVICE CHANGES

## Background

Over the past several years, RTA has been faced with a range of challenges that have adversely impacted the agency's ability to manage its aging bus fleet and, by extension, provide consistently reliable service to riders. This situation is the result of a "perfect storm" of factors.

First, much of the current fleet was replaced at the same time following Hurricane Katrina in 2010-2012. These 104 vehicles, representing about 40% of the fleet, all reached their useful limit at the same time, increasing strain on the rider because these vehicles have become consistently more difficult to keep in service. While an additional 31 vehicles were purchased in 2013, these were for expansion of service as the city recovered from Katrina rather than to smooth out the future replacement needs of the bus fleet. Additionally, the delegated management contractor (2009-2020) did not implement a proper vehicle replacement plan, one that would have included funding and a schedule to smooth out the replacement of bulk orders of buses post-Katrina. The contractor did order of 31 buses in 2018-2019 but that number was far below the needed replacement amount at the time. Upon transitioning back to public management in 2020, the RTA has ordered 27 buses with orders for 35 more pending as funds allow, but the first order of buses will not arrive until Fall of 2024.

Second, parts supply issues from the pandemic have further hampered the RTA's ability to keep buses of all kinds, both older and newer, in good repair. The agency has experienced periods in which many newer buses (2019-2020 model years) have sat out of service waiting for backordered parts.

Third, the nationwide shortage of mechanics has hit our maintenance team, the same as other agencies. The RTA simply does not have enough mechanics to properly staff all the needed shifts to keep buses in working order.

These factors have combined to result in an inability to run a full service of 97 peak vehicles. In June of 2023, the RTA enacted a small reduction in service, bringing peak vehicles in service down to 87 as a temporary measure, to help the agency address backlogged maintenance and provide more reliable service to the public. Unfortunately, an extremely hot and dry summer exacerbated the maintenance issues and the agency found itself unable to meet even this lower peak vehicle requirement. Scheduled trips were frequently being missed due to missing vehicles and riders' wait times were both long and unpredictable.

It was this prolonged unpredictability that caused the RTA leadership to decide to reduce scheduled service even further to a peak vehicle number that can be met: 73 buses in peak service.

#### **Summary of Service Changes**

Currently, the RTA can consistently operate 78-80 buses in peak service. However, given that there is some day-today and week-to-week volatility to that number, the RTA decided to bring the peak vehicles in service down to 73 for this service change, enacted January 14, 2024. This new scheduled service provides the public with schedules the agency believes it can reliably meet and provides the agency with cushion in its vehicle fleet to maintain service even as other issues arise.

#### Changes to Service Frequency

## Emergency Service Reduction Title VI Equity Analysis

Understanding that this is a broad reduction in service, RTA staff took great pains to make sure the negative impacts from reductions in service didn't fall disproportionally on any neighborhood or community. Furthermore, RTA leadership established that no part of the system would lose service in this reduction. Therefore, lines with only one bus – low-ridership coverage routes – would be untouched. To ensure minimal impact, the staff decided to reduce many lines by one vehicle each in peak service to reach the total reduction goal of 14 buses. This spread the cost of the reductions in frequency across the service area, while also spreading the benefit of increased reliability in a similar fashion.

## Table 4: Headway Changes by Line

Line	Current Headway (As of 9/ 10/2023	<u>New Headway</u> (Beginning 1/14/2023
3 - Tulane - Elmwood	20	Decreased to 24 minutes
8 - St. Claude - Arabi	18	Decreased to 24 minutes
9 - Broad - Napoleon	20	Decreased to 23 minutes
11 - Magazine	24	Decreased to 33 minutes
27 - Louisiana	35	Decreased to 53 minutes
52 - Paris - Broadmoor	34	Decreased to 44 minutes
61 - Lake Forest - Village de L'Est	24	Decreased to 30 minutes
62 - Morrison - Bullard	24	Decreased to 30 minutes
66- Hayne Loop	35	Decreased to 70 minutes
67 - Michoud Loop	30	Decreased to 60 minutes
84 - Galvez - L9	30	Decreased to 45 minutes
103 - General Meyer Local	30	Decreased to 45 minutes
105 - Algiers Local	40	Decreased to 80 minutes
114A - Garden Oaks - Sullen	30	Decreased to 40 minutes
114B - Garden Oaks - Woodlands	30	Decreased to 40 minutes

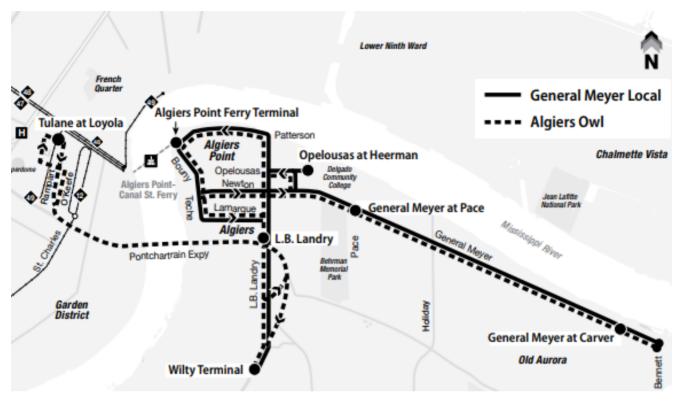

#### Route Changes

#### 103-General Meyers Local

In order to mitigate the reduction in service on the West Bank and Algiers routes, the decision was made to adjust the route of the 103-General Meyers Local. Under the previous set-up, this route would terminate at Wilty Terminal in Gretna. Riders seeking to go downtown would then have to transfer to the 114A/B. This was previously a timed transfer, with the 114A/B scheduled every 15 minutes. With the reduction in service on the 114A/B, the timed transfer was no longer feasible, creating longer and inconsistent wait times for riders of the 103. Therefore, instead of having the 103 stop at Wilty Terminal and force a now onerous transfer, the 103-General Meyer will continue past Wilty to the Main Library Hub (see map), bringing riders to downtown directly.

The number of peak vehicles on the route will remain the same, but the route extension will increase headways from 30 to 45 minutes. While this is a reduction in service, the elimination of a forced transfer, and the subsequent waiting cost, is eliminated for many riders.

## 31-Leonidas-Gentilly & 32-Leonidas -Treme

These two routes are being restored following cessation of roadway construction in the Hollygrove neighborhood that has caused the route to be on detour for the past year. This change improves service in a low-income minority neighborhood and has no impact on service frequency.

## Figure 4: 31/32 Route Changes in Hollygrove

# **EQUITY ANALYSIS**

A Title VI analysis of the changes resulted in a finding of small disproportionate burden and disparate impact for lowincome and minority communities. However, it is important to realize that reductions in scheduled service are merely reflective of the daily reductions in bus service currently happening and that riders are experiencing. Those daily, fleet induced reductions, however, are not planned or predictable for riders. This reduction in service is intended to be as short as possible and improve the reliability of the service. The goal is that even if the bus is less frequent, you are more confident it will arrive at the scheduled time.

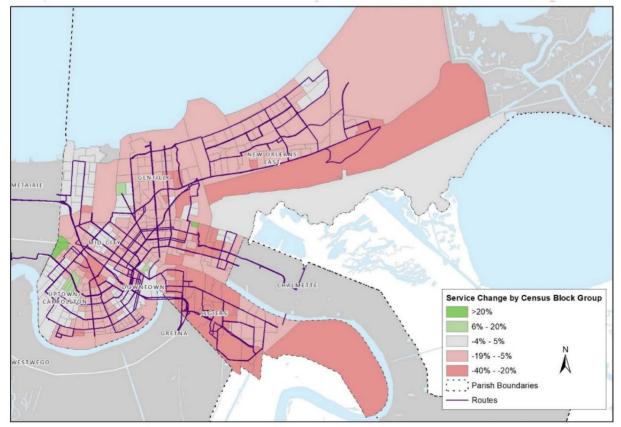

The agency, therefore, concludes that the negative impact of the reduced service frequency will be mitigated by a significant increase in service reliability.

	Low Income	Minority				
Change Borne By	24.8%	72.0%				
Area Average	23.8%	69.4%				
Delta	1.0%	2.6%				

## Table 5: Disparate Impact of Service Changes

A review of the trip difference map (see below) shows that reductions in service are as close to evenly spread across the service area without eliminating coverage to any part of the system.

Figure 5: Trip Difference with Jan 2024 Service Change

# **PUBLIC INVOLVEMENT**

As per the RTA's Title VI policy, public hearings were held for "Major Service and Fare Changes" in such a manner as to inform the public of the proposed changes and provide an opportunity for public comment on those changes.

## Schedule of Community Outreach

Notification for RTA passengers was disseminated via <u>www.RTA.com</u> and on buses and streetcars, through social media and news media outlets. The total outreach plan can be found in the appendix of this report. The schedule of community outreach is summarized in the following table:

- 11.28.23 November Board of Commissioners Meeting
- 11.30.23 City Council Transportation Committee Meeting
- 12.6.23 Riders Advisory Committee Meeting
- 12.7.23 Operations & Administration Committee Meeting
- 12.7.23 Finance Committee Meeting
- 12.8.23 2023 RTA Business Meeting
- 12.12.23 Board of Commissioners Meeting
- 12.18.23 Title VI Public Hearing
- 1.3.24 Riders Advisory Committee Meeting

In addition to the meetings listed above, the RTA conducted numerous community engagement pop-ups at major transit hubs and engaged with neighborhood groups and local businesses/business groups with large numbers of transit riding employees. Engagement events were held at the Main Library Hub, Wilty Terminal, and the New Orleans East Hub. Employer engagement with businesses and business association groups focused on entities with high numbers of transit riders, such as service industry employers. Neighborhood engagement was conducted through neighborhood groups in key areas like Algiers, NO East, and Hollygrove.

RTA also held five community meetings, one NORTA Board meetings, one Operations & Administration Committee meeting, and a Public Hearing on Monday, December 18, 2023, to hear public comments about proposed changes to bus services. The Legal Notice advertising the public hearing and the transcript of the hearing are attached to this Equity Analysis.

#### Summary of Community Feedback

Community feedback was collected via the website, email, comment forms, phone calls, and public meetings and engagement events. Overall, riders were receptive to the changes, understanding the need to reduce service and appreciated that the reductions were spread across the region instead of concentrated in a particular area. The main complaint from riders is a lack of reliability in the bus service and they were appreciative of the fact that we were trying to address that issue head on.

# CONCLUSIONS

A Title VI analysis of the changes resulted in a finding of small disproportionate burden and disparate impact for low-income and minority communities. However, it is important to realize that reductions in scheduled service are merely reflective of the daily reductions in bus service currently happening and that riders are experiencing. Those daily, fleet induced reductions, however, are not planned or predictable for riders. This reduction in service is intended to be as short as possible and improve the reliability of the service. The goal is that even if the bus is less frequent, you are more confident if will arrive at the scheduled time.

The agency, therefore, concludes that the negative impact of the reduced service frequency will be mitigated by a significant increase in service reliability.

## **APPENDIX B: MARKETING & COMMUNICATIONS PLAN**

# **OVERARCHING COMMUNICATION GOALS**

- Clarity: Ensure clarity in our communication
- Transparency: Be open and honest about the reasons for the service reduction and how all other options were considered prior to making this decision
- Consistency: Ensure that information shared across all RTA platforms is consistent
- Feedback: Provide rider feedback mechanisms / increase community feedback across the board
- Empathy: Acknowledge the impact of the changes. Show empathy toward rider concerns and / or inconveniences caused by the service reduction.
- Support: Provide support resources and guidance to help individuals navigate the changes smoothly. Consider frequent Free Fare Days.

RTA 🎾

# **MEASURABLE OBJECTIVES**

- Rider Retention: Retain 90% of existing riders within six months of reduction implementation (Based on recent ridership data).
- Rider Satisfaction: Conduct rider satisfaction survey prior to and six months following the service reduction. Maintain or improve satisfaction levels despite the service reduction.
- Communication and Perception: Gauge how well the message of the service reduction is received by stakeholders. Aim to achieve a positive perception within six months of the service reduction.
- Timeliness: 100% of stakeholders are informed at least two weeks before the service reduction implementation date (January 14).

RTA 🔰

# **KEY MESSAGES**

**Continuous Improvement for Service Reliability** RTA is taking decisive action to provide riders with the consistent, reliable service that they deserve.

- New Buses: RTA's long-term strategy includes introducing 29 new buses to our fleet in late 2024.
- Fleet Reduction: Our maintenance team is reducing our fleet by retiring eight buses and temporarily "sleeping" 24 buses so that each mechanic can work on fewer buses and prioritize those that take less time to repair.
- Maintenance Innovation: RTA is also working on creative short-term strategies to fortify our maintenance workforce including traveling diesel mechanics (when available) to support maintenance.
- Service Reduction: RTA is also considering an additional 15-20% reduction in January 2024 that would impact the frequency of our bus service; this will result in ZERO layoffs.

# **TARGET AUDIENCES**

- RTA Bus Riders
  - ➢ Regular Commuters
  - > Occasional Riders
  - Tourists / Visitors
  - Persons with Disabilities
  - Students
  - Hospitality Workers
  - Transit Dependent (Low-Income)

- Key Stakeholders
  - RTA Board of Commissioners
  - ➢ RTA staff
  - > Community leaders,
    - partners & advocates
  - Elected officials
  - ➤ Influencers

# Media

- ➤ Print
- Broadcast
- ➢ Online
- ➢ Minority-owned

# **STRATEGIC PARTNERSHIPS**

- Community leaders/influencers
- Neighborhood Associations
- Elected Officials
- Downtown Development District
- New Orleans & Co.
- NOLA Public Schools
- Colleges & Universities
- Hospitals
- Louis Armstrong International Airport

# **KEY ENGAGEMENT DATES**

- 11.28.23 Board of Commissioners Meeting
- 11.28.23 DBE/SBE Workshop (Accessing Capital for Growth)
- 11.30.23 City Council Transportation Committee Meeting
- 12.6.23 Riders Advisory Committee Meeting
- 12.7.23 Operations & Administration Committee Meeting
- 12.7.23 Finance Committee Meeting
- **12.8.23** 2023 RTA Business Meeting
- 12.12.23 Board of Commissioners Meeting
- **12.18.23** Title VI Public Hearing
- 1.3.24 Riders Advisory Committee Meeting

RTA 🔰

# **CHANNEL – EARNED MEDIA**

MARCOM POC: David Lee Simmons

# Print

- Winter Service Change Public Hearing Ad placement (New Orleans Advocate)
- Op-Ed (New Orleans Advocate)
- Editorial boards/one-onone interviews (New Orleans Advocate/Gambit Weekly)

# **Broadcast**

- Media Availabilities as needed
- Morning/Lunch TV appearances (WDSU, WWL-TV, WVUE, WGNO, over December/January)
- WBOK appearances: "The Good Morning Show with Oliver Thomas" (December, January)
- NOLA TV Cox Channel 76 All Citizens Together

# **INTERNAL COMMUNICATIONS**

MARCOM POC: Zach Stanfill

- All-staff email message from Lona explaining proposed changes
- Mention of Winter Service Change in Lona's holiday message
- All-staff email message week before service change goes into effect
- One-page explainer flyer throughout building
- Video message by Lona to all staff
- Executive Leadership meetings with Operators, Maintenance

# **CHANNEL – EARNED MEDIA**

MARCOM POC: David Lee Simmons
