Tango Sam - RTA Operator - speaking on behalf of 200 Operators - lack of working equipment on the buses - buses are not ADA ready - if the operators call the defects in they will get written-up - no type of advancement for the operators so work morale is very low -

good old boy club - no one is following the contract and hiring people that has been terminated and hiring them back into the system and promoting them - when qualified operators are being looked over with no opportunity - that is why operators are not coming to work - If the operators go to Ms. Kentrella Crawford to make a formal complaint she states that she is not going to do anything, so the operators have no where to go with a complaint - so the union picked her to come before the Board.

Tango Sam also reported that the Operators went through the grievance process, but none of them have been answered - or scheduled to be heard by the appropriate staff and that the Operators were told by their Service Delivery Manager that if they report anything twice, they will be written-up.

Commissioner Raymond stated that the CEO will handle these issues.

Courtney Jackson - In June RAC asked for the bus pull out performance have not been received -riders are stating that the buses are not showing up - The #61 5:12 a.m. bus does not show up. RAC would like to know when the buses are going back to its regular schedule before the June pick. The #9 passes up riders because the buses are always full during pick hours.
