Executive Summary

This proposal will provide a complete update of the Regional Transit Authority's Canon multifunction printer fleet. This also includes an update of the Uniflow print management server. This also includes additional devices added to the Carrollton site and Money Counting Room.

The Regional Transit Authority will continue experiencing the reliability and quality of Canon technology, while taking advantage of the previously negotiated contract terms for a simple transition.

Device Summary

- 2 DX 4935 with Cassette, Inner 2 way Tray, Fax
- 3 DX 4935 with Cassette, Inner 2 Way Tray
- 3 DX 5840 with Cassette, Inner Tray
- 6 DX 5840 with Cassette, Inner Staple Finisher, 2/3 Hole Punch, Fax
- 2 IPC 265 with Staple Finisher, 2/3 Hole Punch and Fax
- 1 IPC 265 with Booklet Finisher, 2/3 Hole Punch and Fax
- 1 DX 6855 with High Capacity Cassette, Inner 2 way tray
- 4 Year Software Support, Additional Uniflow License, Implementation

- 48 Month Renewal:
- 18 Devices
- 2 Uniflow License
- 4 Year Software Support

Value:

This proposed renewal will allow the Regional Transit Authority to continue the great partnership that has been formed with Canon Solutions America.

The fleet renewal will update all of the RTA's devices with the latest in Canon's award-winning device line- up, as well as renew the Uniflow software that has created a secure and efficient print environment.

This renewal takes advantage of the current contract terms and conditions, for continuity of service that has proven to be extremely callabel.

CANON SOLUTIONS AMERICA

Implementation:

Once the renewal is approved, Canon will work with the RTA to schedule deliveries to the 3 locations and coordinate installation over a 4-5 day period.

The Uniflow implementation team will schedule a call with RTA IT staff to coordinate updating the Uniflow Server and installation of the additional device.
