FTA

The RTA was waiting for the grant associated with the Low - No Buses to be obligated so they may have to be a pause in the project if the money does not come through on time.

BUDGET

The staff was looking into the inefficiencies of the agency and trying to rectify those areas. The RTA has not seen any lag time in reimbursement of monies from the FTA. There are going to be more aggressive attacks on transportation by the Federal Government. The RTA need to start looking into the 2025-2026 budget more in depth. The RTA can pull back on some of the Capital Improvements Projects if the budget gets too tight. Staff needs to be very transparent when it comes to the community and the RTA's budget.
