### C. Justification of Change Order

Safety is seeking to exercise the renewal option of the contract for an additional one-year term and requires these services for ongoing technical safety work such as audits and investigations as well as special tasks as requested by the Executive Leadership Team. An additional \$153,721.66 is needed to cover the planned Internal Safety Management Audits (ISMAs), rulebook development support and other technical safety requests in line with the scope of work. This will also involve ADS assisting with Corrective Action Plan (CAP) deliverables to the State Safety Oversight (SSO). This task is crucial, particularly in the creation of a standalone Rail Operations Rulebook. The necessity for this rulebook has been underscored by the RTA Rail on RTA Bus accident that occurred in March this year, as well as other system-wide deficiencies identified during the APTA Peer Review and subsequent internal and external audits.
